slide across the string of E \flat to trigger harmonics
partial 5th → 7th

The last harmonic should be D \flat

mf → *sffz*

mute the pitch by dampening the string \emptyset

smfz restrained

after the dampers *intensely* $\text{R}\ddot{\text{o}}$

RH, LH, D \flat , A \flat , 8va, 3, f, ff, mf, expand smoothly, sffz with brightness

with growing excitement → *disperse suddenly*

C \sharp , E, D \sharp

sfz, *leggiero*, *p*, *sfz*, *mp*, *p*, *sfz*, *una corda*, *ppp*

with calmness, *una corda*, $\text{R}\ddot{\text{o}}$, *ppp*, $\text{R}\ddot{\text{o}}$

* Use two fingers to slide across two strings

L.V. → L.V.

mp, *una corda*, $\text{R}\ddot{\text{o}}$, *mp > pp*, gently

sffz, *wildly*, *mf*, *ff*, *pp*

The lines suggest the gesture of slide on the string.
It dispenses with the exactness of the harmonics.
Just slide the strings with freedom

*With three fingers on the three strings

L.V. → L.V.

sffz, *f < > p*, *mp*, *pp*, *c.a. 7~8" sec.*

p > pp, *una corda*, *release the pedal slowly*
