自然で荒く、無骨な手描きの線。物理的な世界において、アーティストが紙に手描きするすべてのイメージは、時間と空間というかけがえのない価値を生む。これはチュアンホーの作品スタイルのルーツであり、揺るぎない信念だ。もしアーティストがデジタルドローイングを選ぶ場合は、この価値は生まれない。

たとえば、時間と空間のかけらを再構築する場合、手描きのアーティストは新しいエネルギーを生み出すことができる。それは時間と空間を同時に作るという幻想の組み合わせであり、デジタルドローイングでは不可能なことだ。

Chuang Ho, roots his style of Art in his natural, rough and rugged hand drawn lines, holds an unwavering belief that every frame created on the paper, when an artist hand drawn his art, produces the value of time and space that's irreplaceable for the physical world. This value cannot be produced if the method the artist chooses is digital drawings.

To illustrate, when reassembling the fragments of time and space, an artist who uses the hand drawn method, can generate a new momentum, which combines the illusion of creating a new time and space at the same time, this is unachievable with digital drawings.
