

TAIWAN
WORLD PREMIERE

Ice Age

**Resident Island Dance Theatre x
Maylis Arrabit**

5-21 August, 16:15 (50 minutes)

Ice Age is a new international inclusive choreographic collaboration between visually impaired choreographer Chang Chung-An (Taiwan) and French disabled choreographer Maylis Arrabit. The piece explores the different ways that people support each other in their own cultural environments. Covid-19 has brought the world to a standstill and has impacted every country differently. It evokes the coexistence between two parallel realities, separated by space-time and at the same time, united by it. Then, an action, a gesture and contemplation are very meaningful. We look forward to our reunion in the same space and time this summer.

“Chang Chung-an is definitely one to watch”
