About Stray Birds Dance Platform

The Stray Birds Dance Platform was established by Lai Hung-Chung, the artistic director of Hung Dance. In Taiwan, Stray Birds was founded in 2018 with the ambition of building a platform that would provide young choreographers the chance to promote their work.

In accordance with the nature of the works selected by Stray Birds, choreographers are encouraged to return to the dance dialogue itself, working with clear choreographic concepts, versatility in dance movement design, and energetic solos or duets. With a platform that connects the like-minded, we can establish connections between young choreographers and the international market.

We present three categories of works in the Stray Birds, including a curated "Showcase", an open call "Selection" and "Event / workshop" for registered participants.
