IF I COULD STAND IN THE SKY...

"If I could stand in the sky, would I have more freedom?" This naïve question stems from my experience as an outsider, feeling constrained, restricted, and caught in an ambiguous, disorienting sense of identity. Through this question, I challenge the geographic borders and societal norms imposed by humans and think of the relationship between these invisible boundaries and the concept of freedom and belonging.

"As a resident of Earth, I am seemingly bound to follow these rules of the game. Yet, ironically, under the U.S. tax system, I am classified as an 'alien.' This makes me wonder if I could stand in the sky, would I be free from the constraints of human rules?"
