《每天為你讀一首詩》粉專

每天為你讀一首詩的經營的主要內容，是每天為讀者介紹一首新詩，附上專業賞析、作者簡介和插圖，並發表在網路平台上。

讓讀詩不只單純享受作品本身，也能進一步探索深度解析、了解作者背景以及感受視覺化的詩意體驗。

而主編會定每月主題來決定選詩範圍，例如生態詩、翻譯詩、政治詩等等，呈現完整的主題脈絡。

保存 | 新詩圖書館

而我們介紹過的所有詩作都會記錄在部落格平台，並有作者標籤和搜尋功能，目前已經有1600首詩作以及其賞析、作者簡介。

標籤功能會整理詩人的作品與賞析，例如點選「楊牧」即可觀看我們曾賞析過楊牧的所有詩作。

這樣的設計讓讀者方便，可以從大量的賞析之中，更快速找到心儀的作品，彷彿是新詩電子圖書館。

跨媒體 | 聊天機器人

除了基礎的賞析之外，我們也積極嘗試不同的可能性，例如曾結合資訊科技，以聊天機器人(Chatbot)製作心理測驗遊戲，為讀者推薦一首專屬的詩，共有一萬四千人次留言參與體驗。

跨國合作 | 詩人朗讀

我們也曾與駐愛爾蘭台北代表處以及愛爾蘭文學館(Museum of Literature Ireland)合作，規劃了十首台灣的詩歌，請愛爾蘭和蘇格蘭詩人來朗讀這些英譯的作品。

交流合作 | 聯絡方式

我們樂於與藝文產業，包含作者、出版社或甚至外國團體交流合作，如果有興趣聯絡我們，可以寄信到以下EMAIL信箱：

Every day , Appreciate a poem for you

Learn appreciating a poem from scratch

The "Every day , Appreciate a poem for you" team was established in October 2014. It is composed of the University Poetry Club in Taiwan and initiated by HONG,CHONG-DE and others.

Choose a poem every day to compose appreciation and publish it on digital platforms such as Facebook. So far, it has accumulated 1,600+ poems for appreciation.

Poems for appreciation | Exploration

Facebook fan page

The main content of the "Every day , Appreciate a poem for you" team is to introduce a new poem to fans every day, with professional appreciation, author introduction and illustrations, and publish it on the Internet platform.

Let reading poetry not only enjoy the work itself, but also further explore in-depth analysis, understand the author's background, and feel the visual poetic experience.

The chief editor will determine the scope of the selected poems by setting themes each month, such as ecological poems, translated poems, political poems, etc., to present a complete thematic context.

Preserve | Poetry library

All the poems we have introduced will be recorded on the blog platform, with author tags and search functions. There are currently 1,600 poems, their appreciation, and author profiles.

The tag function will organize the poems and appreciation. For example, click on "Yang Mu" to view all the poems that we have appreciated.

This design makes it convenient for readers to quickly find their favorite works from a large amount of appreciation and analysis, as if it is a Poetry library.

In addition to the appreciation, we are also trying other possibilities. For example, we combine information technology to create a psychological test game with a chatbot, and recommend a unique poem to readers. A total of 14,000 people left messages to participate.

We also worked with the Taipei Representative Office in Ireland and Museum of Literature Ireland to introduce ten Taiwan poems by Irish and Scottish poets.
