Choral music is part of the social fabric of all South Africans. Not being able to rehearse and perform have a profound impact on us all. We, however, understand the value of Lockdown and the incredible sacrifices our key health and other essential staff are making. We wish them blessings, health and safety for this period. To lift your spirits and give you hope to continue we invite you to join us in this series of virtual Choral Celebration Festivals. We aim to share the special magic of choirs across South Africa until we can meet again, face to face, in our concert venues!

On behalf of the Choral Celebration Network Foundation team and all choirs who participated;
A HUGE THANK YOU TO:

Our President for putting the safety of people first.

To the Health Care workers, protection services, armed forces, police and all the service staff in the retail sector and farmers that keep our nation fed! You are valued beyond measure.

Thank you for putting your safety on the line to protect us.

Thank you to every member of the population who adhere to the stay at home plea.

We will get through this and come out stronger.

Stay home, stay safe and healthy and we wish you blessings.

To our incredible conductors who are unsung heroes in our communities, don't lose faith, your singers are waiting for you and the audiences can't wait to see you perform live again.

Yolande Strauss for giving her time to put this all together for us.

Muller Chamber Choir from Taiwan - WOW!

Once again, thank you to all involved.
